

# ~~Two Birds Hat: PUBLISHED and GIVE-AWAY CONTEST!~~

After a month and a half of sketching, studying and testing it's finally here:

My [Two Birds Hat](#)!!

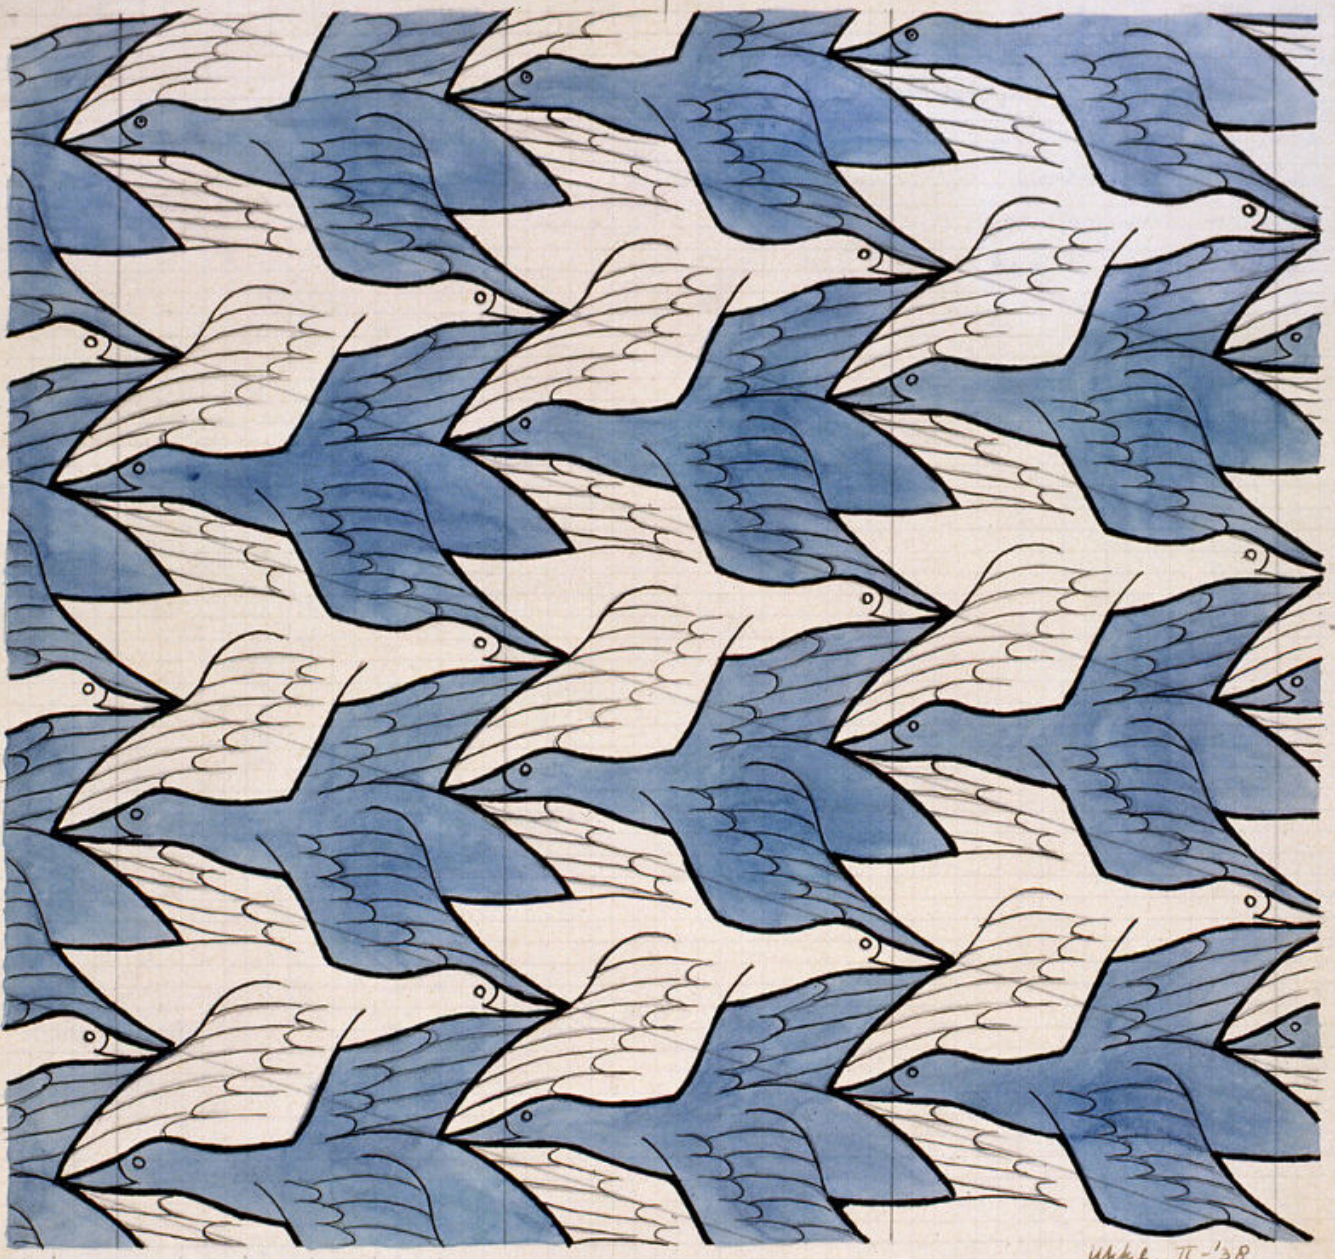

It's a pattern for a gorgeous, MC Escher inspired hat depicting two interwoven flocks of birds. A mathematical sequence – that I figured out so you don't have to:) – lends the hat its vibrant, dynamic look. Choose any two contrasting colors for a striking end result that will turn other people's heads while keeping yours warm and fashionable!

I'm so proud, blah blah blah, but here's why YOU should be interested:
